

Beverly June Barnhart

July 22, 1950 - May 11, 2026

Beverly June Barnhart, lovingly known as “Bevvy June” to her father, passed away in Buffalo, Missouri on May 11, 2026. Born on July 22, 1950, in Imperial, Nebraska, Beverly lived a life marked by strength, generosity, and deep love for family and the simple joys of life.

Beverly was the beloved daughter of Allan and Bernice Alberta Hosier. She was a devoted wife, mother, sister, cousin and neighbor.

Beverly had a remarkable career as a registered nurse and also served as a firefighter. In her younger years, she enjoyed barrel racing. She loved birds, nature, farm life, and the peace found in simple living. Though small in stature, she had a commanding presence and was always confident in herself and her abilities.

Her love language was giving—she was always there to provide for others, especially those in need. That spirit of kindness and generosity lives on through her family.

Beverly was preceded in death by her husband, Harold Dean Barnhart; her parents; and her grandparents. She played an important role in raising and caring for her children and grandchildren, including Richard Dean Barnhart (Susan), Samantha Coble (Dave), and Latisha Boothe (fiancé Mike

Baumgardner), Jessica Delcour Boyd (Justin), Chelsea Delcour Gunzenhauser (Clay), Amber Delcour and multiple grandchildren. She is also survived by her sister, Shirley Hosier and a large and loving extended family. Her nurturing spirit and generous heart touched all who knew her.

She will be deeply missed and fondly remembered by all who had the privilege of knowing her.

Funeral services will be held at 2:00 p.m. on Friday, May 22, 2026 in the Cantlon-Otterness & Viets Funeral Home with Dave Coble officiating. Interment will be in the Memorial Gardens of Memory Cemetery under the care and direction of the Cantlon-Otterness & Viets Funeral Home of Buffalo. Visitation will be from 1:00-2:00 p.m. Friday at the Funeral Home.

“ I befriended Bev 3 yrs ago during a difficult time in her life. We worked together on countless projects. Tools were her passion. It didn't matter what kind, carpenter or mechanic. She knew how to use them too! She addressed someone at her 68 group about soldering. She described Flux core, acid core and solid core. She was told she knew WAY more about solder than a woman should know. She was bragging how good her new 5 inch battery powered circular saw worked for pruning her fruit trees. We had to draw the line on that one! I have been told that back in the day, her and her sister were second to none on horseback handling cattle. Another great passion she had.
