“ You were family from the get go and I can remember when you were living at Clint and Malina's and I had no place to go and I had some friends with me so we stayed there and you were up about 2 hours after we had gotten there and you say down and talked to me for hours until I fell asleep and I will always cherish those moments we had like when you let me run my first chainsaw, I love you bro I hope we all can see each other again, thank you for being the best (adopted) uncle ever.

“ John there are so many things I wish I would of had time to tell you before you had to go. The biggest question that I know a few of us are asking ourselves is Why? Why did it have to be you of all of us in the crew to be one of the first too go? I know a few of us are asking ourselves why couldn't it of been us but thin again no one will ever really now

“ Your never know who will come into you life and make it better. From dancing with the kids to cracking jokes with everyone. Some people are not just friends they become family. John was one of those people. He wanted to help people and refused help 90% of the time. Always ready to put a smile on your face and lend a helping hand. We will miss him and his nightly calls, goofy jokes, visits to my work, and so many more wonderul memories. He was a great man with a greater heart. RIP John you will be greatly missed by all that loved you.

“ There are way too many memories to really pick one. Instead I'll say this. John was always hyped up and full of energy. He could stress a person out, but at the same time you new he would be there if you needed him. Always the loyal friend, a great person, and stubborn like the rest of us in the group. I'm blessed to have recently reconnected with him and had a chance to sit back a reminisce about the good ole days. I love you buddy, and will miss you. Enjoy the good times up above and let out that goofy laugh of yours. As for Sue, Jeff, Tom, and the rest of the family, I'm here for whatever you need. I love you guys.
