“ My parents (Lee and Marlene Miska) lived at Winter Ranch with Phoebe and Jim and became BEST friends that became family. They went to church together, went out to eat, played cards and bingo and games. Phoebe was so special to my parents and in traveling down to visit them, I too got to meet and spend time with Phoebe and learn just how special she was. When I had to put my Mom in Hospice, Phoebe was right there beside me helping me make decisions. Even after my parents passed away, when I would be at Winter Ranch wrapping things up, I would go and visit Phoebe. We continued to stay friends and spoke on the phone. She will always hold a very special place in my heart.

“ *Other than my parents and grandparents, my Daddy's two sisters Phoebe and Joyce are included in my earliest memories. I did not see a lot of Aunt Phoebe after I left home but I always knew she was there. I will miss her presence in the world.*

I just read about Aunt Phoebe's passing and it breaks my heart. We used to talk on the phone. She is at rest now and she took care of so many others. She was great for uncle Sonny and others in their lives. I will miss our phone conversations and Jim and I both send our condolences. Love, Ellie Collins
